

TREASURER REPORT 2010

Income

This year a little good news as total income is up by £1,966 and expenses down by £440.

Membership Subscriptions has again reduced to its lowest, for the last 13 years.

Also this year, we received interest on the special deposit accounts which matured. This will be down next year, as I have invested the deposits for 2 years to obtain a better interest rate.

Shield entries stay the same, but once again I am pleased to say competition fees have increased.

Donations – I have shown separately for the first time and I must thank you for your support to Lancashire and Lancashire Girls it is very much appreciated.

Expenditure

Team Expenses decreased by £1,748 last year was more expensive with Lancashire hosting the County Finals.

I have also listed training separately normally this expenses would be included in team expenses. We are trying a new method of training facility and will be keeping this monitored.

Executive and Catering expenses have reduced £3,074, this again was mainly due to not running the County Finals this year.

Other expenses are purchase of a new computer and a Silver Salver, repairs and engraving.

All in all I'm happy to show steady level of assets and if there are any questions I will try to answer them.
